

We sold everything for an extraordinary life

Welcome to our adventure! 🌲 We are Jesson, Gabriëlle and Frenky, and we left our busy lives in the Netherlands behind to make a dream come true: a free and conscious life in the beautiful Swedish nature. From our forest house in Sweden, we share our journey, full of creativity, home renovation and outdoor adventures, with our fast-growing community on YouTube, Instagram and TikTok every week.

With almost 17,000 followers on Instagram and thousands of viewers on YouTube, we are building an engaged audience that loves nature, lifestyle and authentic stories. Perfect for collaborations around living, outdoor clothing, creative projects and more. Will you join our story?

Why collaborate with Huemans Quest?

✔ Real, committed community

Our followers are active and share our passion for outdoor, adventure and self-sufficient living. This creates real interaction and trust, which is essential for effective collaborations.

✔ Strategic content that works

With a background in Online Marketing & UX/UI Design, we know how to make content not only beautiful, but also effective. Our content is optimized for engagement, conversion and storytelling.

✔ More than just influencer marketing

In addition to sponsored content, we offer content creation (UGC), product testing, campaign strategy, UX advice and social media consultancy. Brands can therefore count on a total package of expertise.

Collaborate?

Tiktok Content

Sponsered TikTok-video – €200

Extra Services Content

Corporate Content Creation (UGC) – On Demand

Affiliate Partnership – Percentage Per Sale

Ambassadorship – Customization

✔ Authentic storytelling

We do not create standard advertisements, but inspiring and natural content in which brands are integrated in an organic way. This ensures higher involvement and credibility.

✔ Multi-platform visibility & storytelling

With an active presence on Instagram, YouTube and TikTok, we create cross-channel campaigns that bring brands to broad attention and make an impact on different target groups.
